	Strawberry cream cheese 1

♡ OUR HUDSON ♡

We love having our 1935 Hudson Touring Sedan prominently displayed on the dock at Kitt's. While it serves as a bittersweet reminder of family members we have lost and miss dearly every day, it also stands as a symbol of the love, hard work, and determination that helped lay the foundation for what Kitt's has become today. The Hudson represents more than just a beautiful piece of automotive history - it tells a story of family, perseverance, and community. Much like the historic Pierce Building that Kitt's Kitchen & Coffee proudly calls home, it reminds us of the people and moments that brought us to where we are today. If you'd like to learn more about the history of the Hudson or the fascinating story behind the Pierce Building, just ask Brock or Andrew. They're always happy to share a few stories about the journey that led us all to this moment.

Food Warning: Consuming eggs cooked and finished at internal temperature lower than 160°F, such as soft sunny-side-up eggs, may present a health risk for some individuals such as pregnant mothers and persons with compromised immune systems. If you are in doubt, please consult your physician for more information before ordering low-temp eggs.
